

MMBOA Travel Requirements

(updated 3/3/22)

Effective March 3, 2022, MMBOA will follow the current CDC guidelines for travel as outlined below.

Please note that children ages 5-11 years are considered fully vaccinated 14 days after they have received their 2nd dose of the vaccine.

Please email all travel plans to covid@mmboa.org.

For Fully Vaccinated Individuals and Fully Vaccinated MMBOA Students:

Domestic Travel by Plane

No quarantine or Covid-19 test required to return to campus for fully vaccinated students or for students who have a fully vaccinated parent or member of their household who has travelled by plane in the U.S.

International Travel by Plane

All international travel by plane for fully vaccinated MMBOA students and fully vaccinated members of our school community will require the following prior to returning to campus:

- ✓ No quarantine required.
- ✓ Get a Covid-19 PCR test or PCR equivalent (Lucira Check It or Cue Health) test 3-5 days after travel.
- ✓ Day 1 begins the day after you have returned home from your travels.
- ✓ Email results to covid@mmboa.org and continue to monitor for symptoms and notify the school immediately if symptoms appear.

For Unvaccinated Individuals and Unvaccinated MMBOA Students:

All travel by plane (domestic and international) for unvaccinated MMBOA students and unvaccinated members of our school community will require the following prior to returning to campus:

- ✓ Stay home and self-quarantine for the full 5 days after travel to monitor for symptoms of Covid-19.
- ✓ Get a Covid-19 PCR test or PCR equivalent (Lucira Check It or Cue Health) 3-5 days after travel, no earlier than day 3 after your return.
- ✓ Day 1 begins the day after you have returned home from your travels.
- ✓ Proof of negative PCR test should be emailed to covid@mmboa.org prior to returning to campus.
- ✓ Continue to monitor for symptoms and notify the school immediately if symptoms appear.
